

Pre-book your English Ivy for 2017-2018 planting season!

- Type: L&E
- Pack: 5000

Ivies are very popular in cultivation within their native range and compatible climates elsewhere, for their evergreen foliage, attracting wildlife, and for adaptable design uses in narrow planting spaces and on tall or wide walls for aesthetic addition, or to hide unsightly walls, fences and tree stumps. Numerous cultivars with variegated foliage and/or unusual leaf shapes have been selected for horticultural use.

Please contact your Sales Person, Terry or Roxy to pre-book!
